**Subject:** Skyline Water Monitoring Missing Information

Gregg,

In my routine quarterly check of the water monitoring data, as the assigned hydrologist, I found some missing parameters and samples in the 3rd and 4th quarter 2004 information. There were also some parameters that I had questions about.

A list of these is attached as an excel file.

In order to avoid a possible violation, you must get this information in as soon as possible. For missing parameters, just let me know the relevant data. If an entire sample is missing, please enter it into the pipeline in the normal manner and e-mail Pam when it is ready.

Let me know if you have any questions.

Thank you,

Dana Dean, P.E.
