Subject: 2nd Qtr Water Monitoring Errors

Dana,

The following samples have unwarranted errors that I hope you can fix. In all cases, the database is asking for T-Fe when it is not required. The requirement is to sample for T-Fe every other week. In the case of both UPDES-001 and -002 T-Fe was sampled on the week either prior, after, or both prior and after. Can you please remove the T-Fe analysis from the following samples:

- UPDES-001 on 5/4/06, 5/17/06, 6/14/06, and 6/28/06
- UPDES-002 on 5/4/06

Let me know if there are any other questions,

Gregg
