Subject: Re: 4th Quarter Monitoring

Gregg,

I have uploaded all of the information for Skyline from the pipeline into the database. A report is attached.

As a reminder, according to your MRP, you are still missing:

CS-10 quarterly sample (in EDI with errors)
UT0023540-003 October, November, December samples
F-9 November, December samples
F-10 November, December samples
JC-1 November, December samples
JC-3 November, December samples
8-253 quarterly sample

A lot of parameters also seem to be missing, please be sure to check and make sure they are all in by the due date in order to avoid having delinquent information. In a quick quality check, it seemed that at least one parameter was missing from each sample. I have not listed the parameters due to time constraints. Unfortunately the database cannot list the missing parameters, and they each have to be checked by hand, which started to become too time consuming.

If your missing parameters are part of a separate lab sample, or you have entered field data separately that should go with a lab sample, please enter the lab sample data through the EDI (I will then delete duplicate field samples where necessary). If your missing parameters go with a lab sample that is already in the database, please e-mail me the missing data and I will get it into the database.

Please let me know if you have any questions.

Thank you,

Dana Dean, P.E.
Senior Reclamation Hydrologist
Utah Division of Oil, Gas, and Mining
(801) 538-5320
danadean@utah.gov

>>> "Galecki, Gregg" <GGalecki@archcoal.com> 3/27/2006 7:31 AM >>>
Dana,

The following errors existing in the 'Pipeline' need to be OK'd by you prior to me being able to submit samples:

- CS-10 D.O. NREQ in 4th
- CS-9 T.O.C. NREQ in 4th
- JC-1 four (4) sites asking for parameters other than the

specific analysis

- 8-253 asking for parameters other than Tritium
- S24-1 asking for parameters other than Tritium
- EL-2 asking for parameters other than Tritium
- S15-3 asking for parameters other than Tritium

Once corrected, I believe the 4th Quarter 2005 samples can be uploaded into the database.

The Turbidity values in question have been input, and an amendment to eliminate Turbidity from the Field parameter list was delivered to the Division on Friday (3/24/06).

Let me know if you have any questions,

Gregg
