Helper, Utah 84526

Subject: Modification to Table of Contents, Canyon Fuel Company, LLC, Skyline Mine, C/007/0005, Task ID #2417, Outgoing File

Dear: Mr. Sorensen:

The Division has reviewed the above-referenced amendment. Enclosed is a copy of our deficiency list for your information. The Permittee must address all deficiencies prior to approval. In order for us to continue to process your application, please respond to these deficiencies by August 17, 2006.

If you have any questions, please feel free to call Jerriann Ernstsens at (801) 538-5214 or me at (801) 538-5268.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor

DEFICIENCY LIST
Task ID #2417

R645-301-121.200, The Permittee must provide correct citations in the Table of Contents for the supporting documents and provide the supporting documents cited in the Table of Contents that are missing from the MRP: **Volume A-2:**

- For the citation “Vegetation and Soils...” provide more information, such as “Vegetation and Soil Letters, Survey Results, and Maps for Proposed Conveyor Route (1991, 4 separate documents)”. This suggestion makes it clearer that there are four documents for this single citation and mentions their nature.
- Relocate “Riparian Plan Community...” to Volume A-2, Volume 2. This suggestion will consolidate all the Woods and Winter Quarters surveys in a single volume, rather than spreading them out between two volumes, which helps expedite the review process.
- Remove the second of the double citations “Baseline Data Report on Presence and Utilization...”. Correct misspelled words in the first citation misspellings.
- Determine if the citation “Additional Wildlife Information...” is a duplicate/typo of the citation “Additional Avifauna Information...”. Typically, there is no reason for wildlife information to be in the Confidential Binder, unless there are site-specific notations, such as raptor nests.

Volume A-2, Volume 2:

- Provide tab pages for Volume A-2, Volume 2 that match the tab pages in Volume A-2 (Soils and Vegetation, Terrestrial Wildlife, and Avifauna Reports).
- Provide the same, corrected Table of Contents in Volume A-2, Volume 2 as provided in Volume A-2.
- The Table of Contents lists the same document “Biological Studies in Winter...” under three different tab headings “Soils and Vegetation, Terrestrial Wildlife, and Avifauna Reports. The Permittee may either provide the same document behind each tab heading. Or, modify the Table of Contents by providing the exact citation under each of the three headings and adding “See document behind the tab Soils and Vegetation” following the citations under “Terrestrial Wildlife and Avifauna Reports”. Currently, the citations differ among the different headings.

Volume A-3: Provide the report “Monitoring Aquatic Macroinvertebrate, Sediments of Eccles Creek – 1984 Summary” that is missing from the MRP.

- Provide the citation “DWR Eccles Fish Survey, 1990” in the Table of Contents. This document is the “last” entry in this volume.
- Relocate “Macroinvertebrate Studies, 2002 and 2003, Winter Quarters and Woods Canyon” to Volume A-3, Volume 2. This suggestion will consolidate all the Woods and Winter Quarters surveys in a single volume, rather than spreading them out between two volumes, which helps expedite the review process.

Volume A-3, Volume 2: Provide tab pages for Volume A-3, Volume 2 that match the tab pages in Volume A-3 (Archeological Reports, Historical Reports, Aquatic Wildlife, Geotechnical, Geology, and Geologic Cross Sections).

- Provide the same, corrected Table of Contents in Volume A-3, Volume 2 as provided in Volume A-3.
- For the citation “Biological Studies in Winter Quarters...” add “A Study Plan” before the date. This suggestion will help distinguish the document as a plan vs. an actual study with results.
