Gregg,

I have uploaded these two samples.

Thank you for trying to track down the sample for 2-413.

Let me know if you need anything else.

Thanks,

Dana Dean, P.E.

Dana,

I have uploaded JC-1 Deuterium and O18 data for the 4th and 1st quarter.
That should make us current with JC-1 Age-dating data.

Erik is still checking on the 2nd quarter 2005 sample for Spring 2-413.
The good news is that no refrigeration, holding time, preservative is
associated with tritium sampling and the sample will be fine once it is
located.

Gregg

Gregg,

Go ahead and enter it into the EDI. I have removed the requirements
since you seem to use different labs for each parameter. This will just
make it so that you and I have to keep on top of what is in, and what
isn't since the database will not know one way or the other.

Let me know if you need anything else.

Thanks,
Dana
