Subject: Another Question

Gregg,

Is the total iron value of 2.37 mg/L for outfall 001 correct for 12/21/2005? If so, did you notify DWQ as required for exceedences? I do not see a copy of the notification in our files, and I know you usually copy us. I know a one-time exceedence is really not a big deal, but I just need to be thorough, and include a note about it in my report.

Thanks,
Dana
