**Subject:** Response Extension Request

Wayne,

As a follow up to our conversation earlier today, attached is a copy of a request for an extension of a Technical Analysis Response to Task ID # 2634.

I will also fax a signed copy to you.

Call or email if you have any questions,

Gregg

RE: Request for Extension of New Sedimentation Pond at Waste Rock Site Technical  
Analysis Response, Canyon Fuel Company, Skyline Mine, C/007/005, Task ID  
#2634

Dear Mr. Hedberg:

Skyline Mines respectfully request the Utah Division of Oil, Gas, and Mining Coal Regulatory Program grant an extension of one (1) month to the January 31, 2007, deadline for responses to deficiencies found in the latest permit modification referenced above. The application is being re-worked to be submitted as a stand-only document, which will be easily accommodated in the M&RP and easy to follow. These modifications are necessary for us to satisfactorily complete our response to the TA. If the extension is granted as requested, the new deadline will be February 28, 2007.

Thank you for your consideration of this matter. If you have any questions, please give me a call at (435) 448-2636.

Sincerely,

Gregg A. Galecki  
Environmental Coordinator
