Joe,

In terms of report 06-10, it appears that no cultural resources were identified by the consultant in the area of potential effects and we concur with your determination of No Historic Properties Affected.

In terms of the second report, we will await a formal consultation request on that report.

Utah Code 9-8-404(1)(a) denotes that your agency is responsible for all final decisions regarding cultural resources for this undertaking. Our comments here are provided as specified in U.C.A. 9-8-404(3)(a)(i). If you have questions, please contact me at (801) 533-3555 or [mseddon@utah.gov](mailto:mseddon@utah.gov).

Sincerely,

Matt Seddon

Matt, the folks at Earth Touch Inc. have completed two cultural resource surveys. We and the applicant are only concerned with the addendum to the first survey, report # 06-10, since it pertains to the alternate site the applicant wishes to disturb for the placement of waste rock. Earth Touch has done a god job in their description of the proposed waste rock area and did not find any cultural resources during their class III inventory of the proposed 10 acre site. We seek your concurrence with their finding of the project having no effect on cultural resource sites. A hard copy is on it's way via capitol mail.....thanks, Joe
