RE: 15-Day initial completeness review -North Lease Incidental Boundary Change, Canyon Fuel Company, LLC, Skyline Mine, C/007/0005, Task # 2875

A brief review of the information submitted for the Reduction of Subsidence Monitoring indicates that the Permittee has supplied enough information to complete a technical review.

The Permittee included suggested text changes for the MRP explaining the reduction in monitoring, and an updated table of contents.
