Hi Matt,

Ark Land Company C/O Skyline Mine has submitted an application to drill one coal exploration hole on private land in Winter Quarters canyon during the summer of 2007. The exploration hole will be completed by helicopter drilling. The exploration site can be located on the Scofield 7.5 minuet quadrangle map, township 13 south range 6 east in the NE 1/4 of the N/W quarter of section 1. The application includes a site specific cultural resource evaluation for the drill hole # C-07, (Earth Touch Cultural Resource report No. 07-15 attachment). A class three pedestrian survey was completed in July of 2007. The project area covered a 100' by 100' area.

According to the survey there were no known districts, sites, buildings, structures, or objects listed on or eligible for listing on the National Register of Historic Places within 1/2 mile of the proposed drill site location. Accordingly we seek your concurrence with the Applicant's determination of no properties affected by the proposed drilling project.....Thanks,
Joe
