Subject: 4th Qtr Monitoring

Dana,

I have updated information for the samples identified as missing in your 3/6/08 email. I apologize for not submitting them previously. A total of 49 samples are in the pipeline which include some Age-dating data. One sample S24-1 has an error because I uploaded the Tritium data but the other field data already exists in the database.

I also appreciate the table you created for the Missing Age-dating information dated 3/10/08. I am working closely with Erik, who is working closely with the labs to resolve any 'outlying' data. Thus far, the labs have indicated any data for the 3rd and 4th quarter 2007 data for at least three (3) months.

Thanks for your continued patience,

Gregg A. Galecki
