**Subject:** Fw: Skyline Shields

Dana,

Here is the e-mail we received from the FS last week giving their "consent" to leaving the shields at Skyline. Based on this e-mail, we notified the company that their proposal to abandon the shields was consistent with their lease. Is this sufficient for your needs?

If not, let me know and we'll see if we can work together with them to get something further.

Jim

Skyline Shields

Jim:

We have reviewed Skyline Mine's request to abandon 148 longwall shields underground. This is our consent to leaving the shields underground. While we do not like to see equipment left underground, we understand that it is necessary for safety reasons in this situation. Please let me know if you need any additional information.
