Subject: NL-sites

Jim,

I just confirmed from past submittals the following:

- Table 2.3.7-2a formerly provided the Water Quality Analysis for the Low Flow Stream analysis (3rd quarter).
- Table 2.3.7-2a was eliminated when Water Monitoring Table 2.3.7-1 was modified (revised) on 5-22-06. This is consistent with the revision dates on pages 2-36, 2-36b, and 2-37. A complete overhaul of the Water Monitoring Tables was done at this time because they were EXTREMELY hard to understand - Table 2.3.7-2a was deleted in the process.
- Pages 2-36a and 2-38 were modified on 6-15-07 to reflect the addition of Spring WQ1-1.

I am confident table 2.3.7-2a no longer exists. I will try to remember to change the reference on page 2-44a in the coming submittal.

During this exercise, I noted that the 2006 stream flows for NL-12 through NL-14 have not been input. We will have them input in 'short order'.

Call or email if you have any other questions,
