This application is not complete, because it does not meet the current, clear and concise requirements of R645-301-121.100 and R645-301-121.200. The application includes page 3-56(b) which is a statement signed by former employees Keith Zobel and Stan Christensen dated 1996, which provides outdated information on the location of snow storage. This page should be replaced with a description of the the three snow storage locations described in the cover letter (SW14, SW19 and the northeast corner of the waste rock site).
