Subject: RE: FW: Skyline Water Sample Reduction Amendment Task #3356

Thanks, April. I'm glad we could work it out.

You will see my revised submittal very soon.

Gregg A. Galecki
Environmental Engineer
Skyline Mines,
Canyon Fuel Company, LLC

Subject: Re: FW: Skyline Water Sample Reduction Amendment Task #3356

Hello Greg,

I know that you have been in contact with Dana regarding this issue of contacting water right holders when reducing water monitoring stations. Dana, Jim and I sat down to resolve how we would handle this situation for this instance and in future instances. We all agreed that we still need to protect the interests of water right stakeholders in accordance with the regulations; however, what was decided was that rather than putting the onus on the Permittee to make the appropriate contacts, the Division will take on the responsibility of doing that. In this case, we will notify the Forest Service, but we will provide a notification only, no comment period. It was agreed that the next hydrology working group meeting would address updating the language in our guidance document to provide notifications only, no response periods (in the interest of expediting the amendment process).

As far as going forward with this task, please submit your responses to the other deficiencies as you normally would. We will send notification to the Forest Service and copy you on the letter. Thanks Greg, I hope that we have addressed your concerns and resolved this issue to your satisfaction.

April A. Abate

Environmental Scientist II
