RE: Midterm Permit Review, Canyon Fuel Company LLC., Skyline Mine, C/007/0005, Task #3356

SUMMARY:

On July 21, 2009, the Division notified Canyon Fuel Company of the commencement of the midterm review. As part of the review, an AVS check was conducted to insure that Ownership and Control information is current and correct, verify compliance status of unabated enforcement actions, determine status of any outstanding finalized penalties, and verify that there are no demonstrated patterns of violation.

An AVS check was ran on August 20, 2009. During the review, it was noted that Atlantic Richfield Co. shows up on the top of the OFT for this permit even though this company no longer has a controlling interest. This issue will be addressed with OSM/AVS. Nevertheless, the information provided is considered adequate to meet the minimum regulatory requirements for this section.

RECOMMENDATIONS:

The Midterm Review is recommended for approval at this time.
