Subject: Water Right Number: 93-553

Dear Ms. Williams:

The Division of Oil, Gas, and Mining (the Division) has approved an amendment to the Mining and Reclamation Plan (M&RP) for the Skyline Mine (Mine Permit No. C/007/0005) which is a coal-producing mine located in Carbon County, Utah. The amendment was approved to reduce the number of water monitoring locations that the mine was under obligation to monitor in accordance with their permit. According to the Division of Water Rights database records (enclosed), your agency is listed as the water right holder within some of the affected areas where the water monitoring locations have been removed. The mine is still under obligation to conduct routine water monitoring in and adjacent to their permit area. In accordance with R645.301-731.224 and the Division's Technical Directive 004, water rights are to be protected and stakeholders should be notified of any changes to a coal mine water monitoring program.

A copy of the current water monitoring plan is contained within the M&RP, which can be reviewed in the Division of Oil, Gas and Mining's Public Information Center located 1594 W. North Temple, Suite 1210, Salt Lake City, Utah 84114-5801.

If you have any questions, please call me.

Sincerely,

James D. Smith  
Permit Supervisor
