All:

This email serves as notification that Task ID 3544 - Rail Loadout Asphalt and Concrete Construction has official been withdrawn. Yesterday (5/18/10) I resubmitted four (4) copies of the application (with the same title) to the SLC office.

Please transfer/attach Plate 3.2.1-3 from Task #3544 to the new application.

A copy of the application will be hand-delivered to the Price Field Office today (5/19/10).

Call or email if you have any questions,

Gregg A. Galecki
Environmental Engineer
Canyon Fuel Company, LLC

Skyline Mine
(435)448-2636

Subject: Skyline TID # 3544

I spoke with Gregg Galecki this AM about his unit costs used in the application, giving him some updated RS Means costs. Between this and the minor text revisions to the hydrology information, he intends to with draw the 3544 application and re-submit.

If you are doing so, please stop work on the 3544 application, and wait on his new submittal. Please hang on to the submitted maps # 3.2.1-3 however. They are still usable.

Thanks.
