RE: Ambulance Shed on Surface Facilities Map, Canyon Fuel Company, LLC, Skyline Mine, Permit #C/007/0005 and Project #3503

SUMMARY:

Canyon Fuel Company, LLC, Skyline Mine submitted an amendment to address moving a Steel building mounted on pontoons from a location behind the main building and bathhouse to a location in front of the main building and bathhouse. No additional bonding is required since the structure has already been accounted for. The building still lies within the disturbed area and all runoff from this area reports to the main sediment pond. The operator submitted a revised Plate 3.2.1-1 to show the current location of this structure since they plan on leaving it at this new location for a long duration of time.

I have reviewed Plate 3.2.1-1 and have found that the location of the Ambulance storage shed shown matches the location noted in the field. I recommend that Project #3503 be approved.
