Thanks, Austin;

The data are uploaded and look OK.

Jim,

The following isotope samples are in the pipeline waiting to be uploaded to the database.

S15-3 3rd and 4th quarter data
2-413 3rd and 4th quarter data
JC-1 Age Dating 2nd, 3rd and 4th quarter data
8-253 3rd and 4th quarter data
S24-1 3rd and 4th quarter data
EL-1 3rd and 4th quarter data
EL-2 3rd and 4th quarter data

That database indicates that the 2nd quarter data for these samples (other than JC-1) has already been recorded.

I apologize it took me a while to respond, we have been busy. Let me know if you need anything else.

Austin;

Attached is the Division's Water Monitoring Report for the 4th Qtr 2009. This is FYI and requires no action; however, I'm wondering if there are any isotope data from 2009 ready to upload, and if the 0 TU values for all six sites for the 3rd Qtr 2009 are valid.
