Ingrid,

As we discussed, attached are the revised redline and clean copies of Table 2.8-1a to replace the same table(s) in the current Skyline IBC Task #3615. As discussed, the only modification is to change macroinvertebrate sampling from Spring 2012 to Spring 2011 to expedite the lab 'turnaround' on the organism identification.

For replacing, there are three (3) redline and three (3) clean copies in binders, and two (2) clean copies in envelopes.

Thanks for 'switching' these out.

Let me know if you have any questions,
