Subject: Skyline Water Monitoring - 2nd Quarter Extension
CC: "Belcher, Austin" <ABelcher2@archcoal.com>

Jim,

As outlined in Section 2.3.7 – Groundwater Monitoring Program of the Skyline M&RP (Pg. 2-33, paragraph 1), we are requesting an extension of the 2nd Quarter Water monitoring until July 15. We will try to get a majority of the sampling completed by July 1, but the roads in the USFS are still inaccessible.

For your information, in a normal water year (Oct-Sept.), we receive 25-inches of precipitation. In the first seven months (through May), we have received 36.22-inches or 190 percent of normal at this time.

Let me know if you have any questions,

Gregg A. Galecki
Environmental Engineer
Canyon Fuel Company, LLC
Skyline Mine
