Subject: Completion of 2010 Annual Report, Skyline Mine, C/007/0005, Task ID #3786

Dear Mr. Sorenson:

At your request, the Division has reevaluated the requirement to submit updated mining projections maps and subsidence maps prepared for incorporation into the M&RP. Certainly we are trying to avoid duplication of efforts as well as trying to reduce paperwork. For this reason we will forgo the requirement to submit copies of maps as a separate application with a C1/C2 form for approval and incorporation into the official mining and reclamation plan. Your updated maps submitted with the Annual Report are considered to be adequate. No further information is required at this time; however, we may revisit the five year mining projection map and the cumulative subsidence map during the next midterm review or the next significant revision to your MRP.

Thank you for your help in completing the Annual Report. If you have any questions, please call me at (801) 538-5325.

Sincerely,

Daron R. Haddock  
Coal Program Manager
