RE: Equipment Abandonment in Coal Lease UTU-67939 of the North Lease area,  
Canyon Fuel Company, LLC, Skyline Mine, C/007/005,

Dear Mr. Haddock:

Skyline Mine has recently completed mining in the 6 Left longwall panel on the subject lease, with all the entries from 1 Left through 6 Left to be sealed in the next few weeks. Recent changes in the floor and roof conditions within the 1 Left section has trapped some equipment that cannot be safely removed from the mine. Skyline Mine is requesting that the following equipment will be abandoned underground: a Power center, sump tank, dust pod, and pick up truck. Only steel will be left underground. The battery and all fluids will be removed from the truck prior to abandoning.

Section 2.5.2 - Hydrological Impacts of Mining located in the currently M&RP addresses the abandonment of equipment. Section 2.5.2 (page 2-51c) currently references metalurgical studies cited by the BLM, and provides a discussion outlining the insignificance of abandoning steel underground. Plate 2.5.2-1; Mine 3 Levels 2&3 Abandoned Mining Equipment Locations, has been modified to include the equipment currently proposed for abandonment (12B and 12C). A copy of the map will also be included in the 2012 Annual report.

The pertinent information being submitted electronically to the Division WebDav website will be the following files:

- This cover letter and C1 and C2 forms (.pdf format)
- Plate 2.5.2-1\_rev.6; Mine 3 Levels 2 & 3 Abandoned Mining Equipment Locations (.pdf format)

A total of two (2) files are being submitted.

Your prompt consideration of this request would be appreciated. If you have any questions, please call me at (435) 448-2636.

Sincerely,

Gregg A. Galecki  
Environmental Engineer, Skyline Mine
