Helper, Utah 84526

Subject: ASCA Modification, Canyon Fuel Company, LLC, Skyline Mine, C/007/0005, Task ID #4107

Dear Mr. Sorenson:

The Division approves your proposal to use gravel as sediment control in Alternate Sediment Control Areas (ASCA) for access to and parking for 3 separate pump houses. ASCA Areas 11 and 12 are well vegetated and such vegetation should be continued to be encouraged. Area 13 is located just off Utah Highway 264 and likely gets disturbed every year during the snow season. Graveling of these areas with an effort not to disturb the existing vegetation is a viable approach. The amendment is hereby approved.

Please submit one hard copy to the Division for incorporation into the MRP. If you would like a hard copy returned to you for incorporation, please submit two copies.

If you have any questions, please feel free to call me at (801) 538-5325 or Ken Hoffman at 801-538-5345.

Sincerely,

Daron R. Haddock
Coal Program Manager
