Subject: Division Approval of Equipment Abandonment, Canyon Fuel Company, Skyline Mine, C/007/0005, Task ID #4154

Dear Mr. Sorenson:

The Division received notification on August 3, 2012 from Canyon Fuel that equipment was unavoidably left underground due to a floor heave and roof failure in the 1<sup>st</sup> left tailgate and bleeder entries which made the mine tunnel impassable. The BLM's summary of compliance with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and their approval of this action was received by the Division on August 13, 2012. Plate 2.5.2-1; Mine 3 Levels 2&3 Abandoned Mining Equipment Locations, was modified to include the location of the equipment recently abandoned underground. The information submitted to the Division with this task has been approved and incorporated into the MRP.

If you have any questions, please feel free to call me at (801) 538-5325.

Sincerely,

Daron R. Haddock  
Coal Program Manager
