RECEIVED
NOV 04 2013
DIV. OF OIL, GAS & MINING

Dear Mr. Haddock:

We have reviewed the Mine Permit Modification area for the North Lease Area of the Skyline Mine submitted to DOGM by Skyline Mine. I concur to the Modification, subject to approval from the Office of Surface Mining (OSM).

For this coal mining action, it is the responsibility of the Forest Service to determine post-mining land use, and special requirements to protect non-coal resources. The Modification will not change the current land use, and post-mining land use will remain the same. Special requirements for the protection of non-coal resources were identified in the consent decision to the BLM. These requirements were carried forward into the coal lease by the BLM.

Contact Tom Lloyd, Minerals, Engineering, & Lands Staff Officer at 435-636-3696 for additional information.

Sincerely,

Thomas W. Lloyd for

ALLEN ROWLEY
Acting Forest Supervisor
