Hi Gregg,

I just completed a mid-term review for Skyline and I noticed that as a result of the North lease expansion amendment, there is the requirement to include a survey of the Three-toed woodpecker during the raptor survey. I only bring this up because I also noticed that it was NOT included in the "Future Commitments and Conditions" of the annual report. That must have slipped through the cracks. Just wanted to make sure we were on the same page.

Thanks,

Lisa Reinhart
