Amanda,

So we are all on the same page, during the 3rd quarter we are doing the 5-year baseline water quality analysis. Primarily, the requirement is to collect water quality analysis on the "Quarterly Field Parameters only" sites. Table 2.3.7-1 (page 2-36 through 2-36b outlines sampling pretty clearly.

The sites that are not as straight-forward are the age-dating sites. The following is a list of the age-dating sites and whether we intend on collecting a water quality sample.

- EL-1; no sample
- EL-2; no sample
- S15-3; baseline sample
- 2-413; baseline sample
- 8-253; no sample
- S24-1; baseline sample
- JC-1; baseline sample

We'll assume you agree unless you respond otherwise. Call if you have questions,

Gregg A. Galecki
Environmental Engineer
