Technical Analysis and Findings
Utah Coal Regulatory Program

PID: C0070005
TaskID: 4792
Mine Name: SKYLINE MINE
Title: MIDTERM COMPLETION RESPONSE

Reclamation Plan

Bonding Determination of Amount

Analysis:

The Permittee as part of the Midterm review process of 2014 updated all the individual line item costs of the reclamation bond amount. The application included sheets that have been updated utilizing Division approve costing references 2014 RS Means Heavy Construction, Blue Book Rental 2014 2nd quarter, and Caterpillar Handbook. The new bond amount of 5,799,000 in 2019 Dollars leaves the mine currently under bonded by 13%. The permittee in their application indicated they will begin the process of increasing their bond by the required amount of \$600,000.

The Permittee meets the requirements of R645-301-830.140 and the application is recommended for approval.
