Cc: Gregg Galecki <ggalecki@bowieresources.com>, Jeremiah Armstrong <JArmstrong@bowieresources.com>

All,

Per Dan's inspection report, maintenance on UC-2 inlet has been completed. See attached before & after photos.

Priscilla and Steve, attached is the final independent partial inspection of the Skyline Mine conducted on April 26, 2017.

As discussed in the closeout meeting and with one additional email to Priscilla (Steve, I'll check right after sending this email to make sure you also got this past maintenance email, and if not I'll send it to you), I did not see any reason to

pursue any enforcement actions as a result of this inspection. Only one maintenance item at the UC-2 inlet is still in need of maintenance.

Please forward this to Gregg and Jeremiah and thank them for their time and efforts for me, and let me know if you have any questions or concerns,

Dan M.

PS I didn't know who else in DOGM to forward this to, please do so as necessary.
