Cc: Gregg Galecki <ggalecki@bowieresources.com>

All:

Per Special Permit Condition #2 attached is the Skyline Mine monthly flow data for discharges into Eccles creek – updated through January 2017

We did have two issues this last month. The software has been down for over a week that continually records the discharge into Eccles creek. I averaged in the four flows that I had when I sampled UPDES but I will update this spreadsheet and re-send it when I have better numbers. Also, our JC-1 pump has been off starting on the 8th of January. We are working on replacing the pump but this will be months out.

Please let me know if you have any questions or need anything else.

Thanks

Taylon Earl
