Todd,

I am aware of this and don't believe there are any wildlife concerns associated with it. I believe I made some comments to our Geologist (Jeff Salow). Thanks for reaching out, I appreciate it. Hope all is well.

Jeff

Subject: Skyline Seismic Station

Hey Jeff,

I believe you're already aware of this, but Skyline mine is wanting to put a new seismic monitoring station in their permit area. I can't think of any wildlife issues that would be associated with an area so small but thought I'd cover all my bases and check with you to make sure you're aware and give you a chance for any comment on the proposal. Let me know what you think or if you have any questions.

Thanks!
