Todd,

I dont see any concerns with the updates to this permit.

Thanks

Hey TJ,

We just received a project proposal from the Skyline Mine and apparently it's a bit of a rush job so I want to get our consultation rolling quickly. In short, the mine had already permitted a powerline from the main mine site to their Swen's Canyon facility some time ago but they recently realized that it would not be sufficient so they are beefing it up and slightly changing its course too.

I'm not aware of any major wildlife concerns in the area but I'd appreciate any feedback or issues you may have. I will also be consulting with Forest Service biologists since it is in the Manti-La Sal National Forest.

I've attached a copy of their plan amendment and it contains several maps and other info if you need it. I appreciate your help on this, as always, feel free to contact me with any questions or concerns.

Thanks!
