NOV 9 1979

Mr. Thomas Bailey  
UNC Plateau Mining  
P. O. Drawer PMC  
Price, Utah 84501

Dear Mr. Bailey:

Our office has reviewed Plateau Mining Company's maps for the planned expansion and sequential development of the Star Point No. 2 Mine. I understand that you have discussed the proposal with the State of Utah. It is our opinion that the proposal constitutes a modification to the mining plan approved by the U.S. Geological Survey inasmuch as the maps indicated that new areas would be mined. Therefore, in accordance with 30 CFR 741.11(a)(2), and 30 CFR 211.10, OSM requires a mining plan which complies with the requirements of 30 CFR 741.13, 30 CFR 742 and 30 CFR 744 before we can proceed with an analysis of your proposal. The maps submitted to OSM do not meet the requirements of 30 CFR 741.11 (a) (2) or the requirements of 30 CFR 211.10.

If you have questions with regard to the requirements for mining plans, please contact Floyd Johnson or Dan Kimball of my staff (303-837-3773).

Sincerely,

DONALD A. CRANE
