Mr. Donald A. Crane, Director
Office of Surface Mining, Region V
Post Office Building, Room 270
1823 Stout Street
Denver CO 80202

Dear Mr. Crane:

Enclosed are the completed expansion and sequential development plans for the UNC Plateau Mining Company Star Point No. 2 Mine. They are to be reviewed and approved by your office and made a part of our completed mining plan and environmental analyses. These were transmitted to you from the Conservation Division, U.S. Geological Survey, by letter dated September 22, 1978.

The plans project an annual production of 2 million tons for the next twenty years. This expected output may change due to market conditions; however, the same sequential development of the reserves will transpire but it may be at a slower rate.

Please keep us informed of the progress in this approval procedure.

Sincerely,

S.W. Rigby
Steve Rigby
Mine Engineer
