Mr. Cleon B. Feight, Director
Division of Oil, Gas & Mining
Dept. of Natural Resources
1588 West North Temple
Salt Lake City UT 84116

Re: Interim Order
Cause No. ACT/007/006

Dear Mr. Feight:

In response to the above cause, UNC Plateau Mining submits for your approval the hydrologic monitoring plan as prepared by a consultant, Vaughn Hansen Associates. Once the plan has been approved by the Division, Plateau Mining Company commits to the implementation of said plan, weather permitting.

This submittal will abate the continuing violations numbered 1 & 9 concerning rule MC 717.17 that were issued during an inspection of Star Point #1 and #2 Mines conducted by the Division and the U.S. Office of Surface Mining on January 9, 1979.

In addition to the monitoring plan, enclosed is a copy of Vaughn Hansen Associates' Runoff Control Plan prepared for Plateau Mining Company. Having just received the reports we would particularly solicit the help of the Division in reviewing this Runoff Control Plan. The staff of Plateau Mining Company has not had sufficient time to evaluate this plan and would appreciate your views and comments before making a final decision on its implementation.

Sincerely,

Thomas F. Bailey
President
