Inspection Memo  
to Coal File:

Re: Plateau Mining Company  
Starpoint Mine  
ACT/007/006  
Carbon County, Utah

The above mentioned operation was visited on January 11, 1980 by Doug Stewart and Joe Helfrich from the Division, and Ron Gregg and Vern Maldonado from the Office of Surface Mining. State and Federal inspectors were accompanied by Steve Rigby, Mine Engineer for Plateau Mining Company.

A cursory inspection was conducted due to inclement weather and deep snow throughout the permit area. State and Federal personnel observed the coal stockpile, refuse area, Starpoint #'s 1&2 portals and access and haul roads. A complete inspection was tentatively scheduled for March or April, weather permitting, to determine the nature of several outstanding violations.
