REF: PHONE CONVERSATION ON 12/9/81 - BULK DUST TANK WITH COMPRESSOR

Dear Wayne;

Please find attached a diagram showing the proposed site of our Bulk Dust Tank. The site is presently disturbed and is a portion of the Lion Deck Area being utilized for parking. The undisturbed drainage is protected from any contamination with an earthen berm. The area of the tank drains to a collection box and is routed through Sediment Pond #1.

If your office has no objection to implementation of this structure, work will commence within the next ten days. If you anticipate any problems, please notify me at your earliest convenience.

Sincerely

PLATEAU MINING COMPANY
