Re: Starpoint Mine, Carbon County, Utah - Review of a
Technical Assessment for Starpoint Mine

Dear Mr. Grimes:

The staff of the Utah State Historic Preservation Officer has received, for review, from the Division of Oil Gas & Mining, the technical assessment for the Starpoint Mine, particularly those sections dealing with cultural resources.

It appears to the preservation office that the Office of Surface Mining still has questions concerning the accuracy of the cultural resource information provided by the applicant in his mine plan submittal.

Therefore, our office would like to suggest to Plateau Resources that we meet with officials of the Division of Oil, Gas, & Mining, your company, and our office to determine what steps need to be taken to allow your mine plan to be accepted and to expedite the program to allow mining to continue.

Please contact our office at 533-7039.

Sincerely,

Melvin T. Smith
Director and
State Historic Preservation Officer
