Ref: Phone conversation 08/24/81

Dear Lynn:

As per our telephone conversation: I will recommend that the mulching operation be postponed until 09/08/81. Other than the first nine acre unit, we will work those units which will necessitate using the greatest time per area covered.

I appreciated your comments on our seed list and will proceed as indicated. I do wish you luck in trying to get concurrence between the various regulatory agencies on prescribed seed formula's for various areas in the state.

Also, if you feel experimental planting of the ponderosa is not advisable at this time, I'll table that suggestion until more information is available.

As I mentioned, if you could come down during the mulch operation I would appreciate your input.

Sincerely,

PLATEAU MINING COMPANY

Melvin Coonrod
Environmental Coordinator
