ACT/007/006

Attention: Susan Linner

Dear Susan:

Enclosed, please find a map with locations of the nests which we observed on the helicopter survey of cliff-nesting Falcons and Bald Eagles.

This survey was done in conjunction with a research project in which Plateau Mining Company is a cooperating segment. The U.S. Fish & Wildlife Department, and U.D.W.R., is interested in the actual impact of these, and a number of other species indigenous to the Plateau Mining properties.

In reference to your concern of these, and other high federal and state interest, (ref. Act. 007/006) I'm sure, if you refer to our latest submittal of July 28, 1981, that all pertinent information is more than adequately covered.

I feel that Plateau Mining Company's research effort is in the realm of enhancement rather than compliance, and if you refer to the cover letter we supplied, when I sent the U.D.W.R. survey, I indicated it was informational in nature and was only enclosed for your general knowledge.

We will continue to keep you informed of on-going research unless you direct us to do otherwise.

If you have additional questions, please feel free to contact me.

Sincerely,

PLATEAU MINING COMPANY
