DIVISION OF OIL, GAS & MINING

Mr. Jim Smith
Corporation of Mine Land Development
Division of Oil, Gas and Mining
1588 West North Temple
Salt Lake City, UT 84116

Dear Mr. Smith:

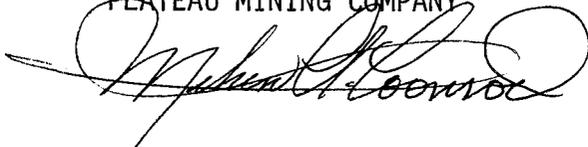

In reviewing some old correspondence, I noted that the Division of Oil, Gas, and Mining had requested that, 1) Plateau Mining Company erect a weather station to monitor precipitation, wind velocity, temperature, and barometric pressure, and 2) that Plateau Mining Company should implement test plots in reference to vegetation on disturbed areas.

I am writing to confirm that both of these requests have been met. We are monitoring weather, at the lower office complex, and will provide this data at your request. Also, Plateau Mining Company, in conjunction with Native Plants, has implemented a number of vegetation test plots. The first data from these plots should be available by the end of September. At that time, we would like an opportunity to present our results, at the next regular board hearings, as per request by Mary Ann and Lee Spencer.

If you have any other areas of concern, which we have not addressed, please let me know and I will make every effort to rectify the situation.

Sincerely,

PLATEAU MINING COMPANY
