Mr. Jim Smith
Division of Oil, Gas and Mining
1588 West North Temple
Salt Lake City, UTAH 84116

Dear Mr. Smith:

Per your request during the meeting on June 12th, you will find enclosed the permanent drainage plan for our Lion Deck for your formal approval. Drainage water from undisturbed areas shall be diverted to its natural channels by means of diversion ditches or corrugated aluminum drains and downspouts. Drainage from disturbed areas will be collected and downspouted to a sediment pond. All pipe joints are banded and sealed with a rubber gasket to provide a waterpipe system, each completely independent of the other.

If there are any further questions please don't hesitate to contact us.

Sincerely,

PLATEAU MINING COMPANY

Mel Coonrod
Environmental Coordinator
