Subject: Plateau Mining Company's Mining and Reclamation Plan A.C.R.

Dear Mr. Crane:

In regard to your April 21, 1981 letter to James Smith of DOGM of Utah, Plateau Mining Company presents the enclosed information. Based on this new information and the baseline data already contained in the Mining and Reclamation Plan (MRP), Plateau feels the Plan should be called complete at this time. We therefore request that the Technical Environmental Analysis (TEA) be initiated immediately in order that the November 1, 1981 deadline for Plateau can be met.

New baseline data are presently being collected as explained in the MRP. Because of uncertainties such as weather, etc., it would not be advisable to wait on the TEA initiation until all data are collected. Enough data are available at this time to begin the TEA process. Remaining data will be submitted in June or July, or sooner if available.

Should you require additional information or clarification, please feel free to call either Steve Rigby or myself. Our telephone number is (801) 637-2875.

Sincerely,

PLATEAU MINING COMPANY

Floyd J. Tucker
Vice President and
General Manager
