RE: Construction Approval
New Shop Building
Lion Portal Pad
Star Point Mine
ACT/007/006
Carbon County, Utah

Dear Mr. Grimes:

The Division has reviewed the design materials submitted relative to the construction of the new shop building on the Lion Deck portal pad. This letter will serve as approval for the proposed facility as designed.

It is understood that only portions of the pad will be paved this year. As such, it will be imperative that proper temporary erosion control measures be provided and maintained until the remainder of the pad can be paved and the appropriate permanent drainage control measures implemented.

If you have any comments or questions, please call Wayne Hedberg of my staff.

Sincerely,

JAMES W. SMITH, JR.

Dear Mr. Smith;

Plateau Mining Company is planning to construct a new shop building at the Lion Portal Pad. Construction will begin in approximately 30 days.

The building has been addressed in the appropriate areas of our Mining and Reclamation Plan including drainage, reclamation, etc. The drainage plan for the entire Lion Portal Pad has been addressed in our MRP and is in the final stages of detailed design and will be constructed in the next 30 to 60 days. The new shop building is included in this drainage system. The drainage from the pad will be diverted into Sediment Pond No. 2.

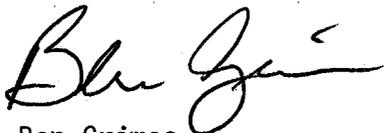

The general area has previously been disturbed and no new surface disturbance will be necessary.

Enclosed you will find copies of three drawings showing the general location, floor plan and elevation views.

If you have any questions feel free to call.

Sincerely,

PLATEAU MINING COMPANY
