RE: EXPLORATORY DRILLING FOR GEOTECHNICAL ANALYSIS RELEVANT TO PROPOSED
UNIT TRAIN LOAD OUT.

Dear Jim,

Attached is a preliminary map showing the approximate locations of a number of drill sites which PMC needs to implement in the immediate future.

Where all sites are located on previously disturbed areas which have all necessary hydraulic safeguards in place, I felt confident that your agency could approve the program without the formal plans associated with a new disturbance.

Ideally, we would like to let the contract so that work could commence by October 28, 1982. If I can be of any assistance, please feel free to call.

Thank you.

Sincerely,

PLATEAU MINING COMPANY
