Memorandum

To: Utah State Coordinator, Office of Surface  
Mining, Denver, Colorado

From: District Mining Supervisor

Subject: Plateau Mining Company, Star Point Mines,  
Carbon County, Utah, Underground Mining  
and Reclamation Plan

The "Proposed Change in Ventilation Breakout Location, South Fork of Corner Canyon" which was transmitted to this office with your form letter dated July 2, 1982, is a second modification of part of the approved subject plan. As requested, we have reviewed the proposed change for technical adequacy relating to the responsibilities of the Minerals Management Service under the Mineral Leasing Act. We have determined that the proposed coal recovery procedures will be benefited by this necessary ventilation change and that there are no foreseeable conflicts with future recovery of coal resources.

JUL 26 1982

**Memorandum**

**To:** Utah State Coordinator, Office of Surface Mining, Denver, Colorado

**From:** District Mining Supervisor

**Subject:** Plateau Mining Company, Star Point Mines, Carbon County, Utah, Underground Mining and Reclamation Plan

The "Request for Minor Modification of Refuse Pile Expansion Plan," which was transmitted to this office with your form letter dated June 28, 1982, and which modifies a part of the approved subject plan has been reviewed as requested for technical adequacy relating to the responsibilities of the Minerals Management Service as presented in the Mineral Leasing Act. We have determined that this submittal will not interfere with the proposed coal recovery procedures, nor will it conflict with future recovery of coal resources.
