Mr. Lynn Kunzler  
Division of Oil, Gas & Mining  
4241 State Office Building  
Salt Lake City, Utah 84114

RE: LETTER OF MAY 18, 1982 - ADDITIONAL DATA RELATIVE TO STIPULATION  
9-22-2.

Dear Lynn,

I have been in consultation with Mr. Richard Stevins of the Great Basin Research Center. Attached is the tentative seed list. All amounts are based on PL seed and availability.

As I indicated earlier, the earth work, with the exception of the implementation of the basin blade, is complete at this time. The experimental use of the basin blade will be implemented in August, 1982.

Seeding will start as scheduled during the first portion of October with a spring planting in 1983.

If any additional data is required, please feel free to contact me.

Sincerely,

PLATEAU MINING COMPANY

  
M. A. Company
