DIVISION OF
OIL, GAS & MINING

TO: BILL SNYDER, BILL BERGAMO, DANNY PRICE
FROM: John Rosner
SUBJECT: TRASH DISPOSAL

In an effort to eliminate potential problems associated with the open burning of trash, we have recently contracted with City Sanitation to pick up our trash and haul it to the Carbon County Landfill. Three orange, brown, and white bins have been left on the property for this service: one at the old loading dock at the No. 1 Mine; one at the cement trash bin near the Lion Deck; and one at the landfill area near the Villas.

These bins will be picked up as necessary and taken directly to the County Landfill. It is important, therefore, to ensure that no scrap metal or other salvageable material is placed in the bins. Additionally, no corrosive or explosive materials should be put into them, and nothing should be burned in them.

With this new trash disposal system, we should eliminate all burning of trash on the property.

Would you please notify all appropriate individuals about the new system and notify me whenever a bin is almost full so that arrangements may be made for pick-up.
